

LDG | ONE ON ONE ASSIGNMENT

Delegate and choose one of the apprentices to develop a matrix (similar to the one below) for each month. Ask them to email the group the schedule in the next couple days. They will:

1. Create the initial spreadsheet that will start in the month following the second session.
2. Rotate people each month so that they are paired with a new person every session.

Before the next session, group members will connect with another member for breakfast, lunch, or co-ee to get to know each other a little better, discuss the homework assignments, books, etc.
